Chairman Smith reported having requested Roadmaster Hofer to obtain pricing under Pennsylvania's cooperative purchasing program (*COSTARS*) to replace the Township's *Caterpillar 924F* wheel loader after being informed the shop estimate had increased from \$6,726 to repair what was initially thought to be a leaking rear axle seal to an estimate of \$18,734 required to replace all rear axle gear components. He noted the trade-in value of the wheel loader was quoted as being \$17,000 when it was fully operational the previous year. Roadmaster Hofer reported the Township has incurred a cost of approximately

\$2,000 for the work involved in disassembly and transportation of the wheel loader rear axle to the local *Caterpillar* service center prior to having obtained the revised repair cost estimate.

Chairman Smith stated leasing options were not viewed as being favorable to the Township and Roadmaster Hofer presented the following *COSTARS* prices for purchase of a comparable (2.0 cubic yard bucket) wheel loader with an interchangeable tool (IT) coupler:

- Caterpillar 926M @ \$146,250
- Case 621G @ \$134,850

The JCB 417HT quoted by Stephenson Equipment was immediately available to be shipped from the JCB Savannah, GA factory, while a new model order was quoted at \$129,500. The only difference between those models was an LED lighting package and rear camera.

Motion by Chairman Smith to purchase a JCB 417HT wheel loader from Stephenson Equipment at the *COSTARS* price of \$124,500 contingent upon installation of LED lighting components and an "as is" trade-in allowance of \$5,500 for the Township's *Caterpillar 924F* wheel loader (net purchase price of \$119,000) and to include \$15,000 in the Township's 2018 General Fund Budget for purchase of a street broom attachment was seconded by Supervisor Cooney. *Motion passed unanimously.*
